Tom,

Here is the quote we talked about yesterday. Please sign and send back as soon as possible, and we will see you next week.

Thanks,

Jake Martinez

Tom and Board Members,

How much have we spent of the road budget already? Is there money for this and to complete the north part of the road where work has been done all summer?

If there is enough money to complete projects already started then I vote to approve the estimate.

To follow up from a voice mail from you last week regarding expanding the road from the mailbox to the Cook house: I vote we complete the road projects already started this year before we expand the road at the mailbox.

If there is money left over in the budget then we can certainly expand the road. I think it is absolutely essential to put gravel/road-base on the road starting at Forester's old place down past Freds house to Eric and Beckys house. If the Koonz are going to be there this winter we need to add gravel and road-base to their place.

Feel free to contact me if there are any questions.

Clifford

I would like to change my approval. I have to agree with Cliff. There are others who have been promised their road would be fixed/worked on this year. They should be the top priority.

If we don't patch the pot holes in the lower roads we will lose those roads. As much as I like seeing work being done on the upper roads - FINALLY - if we don't pay some attention to the lower roads we won't even be able to get to the upper roads.

As quoted by Cliff " "

I do believe these lots are on the lower roads!

I do understand your concerns Jake. Therefore I feel this is something we need to discuss further at our meeting this month.

Just so you do know, my lot is on the part of road Tom is talking about repairing 'between mailboxes and Brian's' place. Our lot is B4. My vote is NOT benefiting me personally at all.

All,

I think we are talking about two different things. I am for patching the lower roads if there is money to do it (and there should be). I think there will be because we have spent less on everything else, with the notable exception being trash.

I am not for widening the road from the mailbox until the rest of the work started is completed. If there is money and time then we can add to the lower road. Traditionally we will be able to add to the lower road until mid December. My concern is if we start widening the lower road we will not complete work on the upper roads and our progress will be lost.

This is not a contentious issue; we need to work on the upper roads while the weather permits and the lower widening can be done toward the end of the season. Please contact me if there are questions or concerns.

Clifford
