Subject: Re: AWM removal of fence around trash can

I vote to remove it too--its beginning to be an eyesore and has several sections that need to be repaired.

Hello Trustees,

Now that we are officially not in the trash business I think it appropriate to remove the fenced in area around where the trash can once lived.

Here are my reasons:

1) The many non-hideaway users of our former trash service will continue to fill up the fenced in area, trash can or not. Surly no Hideaway owner would throw trash on the ground in protest to having to pay for their own trash.

2) A future board might think they can put trash service in place without a vote of all the people. If the fence remains it will only serve as a reminder that the Association once provided trash service to most of north Sanpete County.

3) A fence with nothing in it just looks out of place.

4) there will be more room for motor homes this summer and in a few weeks when owners show up for Memorial Day.

I'm sure there are other reasons but those are good enough to remove the fencing.

A big "thank you" is due to Boyd Williams for paying \$20 bucks to several people to clean the area. I was down there on Wednesday and it looks great!

The plan is to take a torch and cut the poles off at the ground so all is left is a clean cement slab.

Please send me your vote.
